**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My wife and I depend upon our broadband fiber connection at home for both our work productivity and my kids school homework. We shopped around and made the jump from DSL to fiber because there was wonderful competition in our neighborhood and the option for affordable fiber was available. It is expensive living in San Francisco and my wife and I both work for non-profits, our kids go to public schools, and we save every penny we can. We got a great plan that included telephone with our fiber broadband. This transition to fiber let us cut our cable TV out and rely instead upon internet based entertainment like netflix, hulu and prime ... all while saving money.

Please let others save money the way we did. I love our superfast fiber connection and I love the competitive pricing. Don't take this opportunity away.
